

Because safety is at the forefront of everything you do, Tollos is proud to offer built-in, electric ceiling lifts.

Patient safety and patient experience are top priorities. We get it. Every patient deserves to be lifted/ repositioned in comfort, knowing they are well taken care of.

Moreover, your clinicians deserve a safe work place. Help protect them from injury by installing lifts throughout your facility.

Work smarter and offer peace of mind.

Cirrus Ceiling Lift

tollos

The Cirrus® Ceiling Lift is one of the industry's smartest, most versatile ceiling lifts on the market. Manufactured in North America, this lift includes a long list of standard features specifically engineered to optimize patient comfort and safety, as well as reduce caregiver injury.

This lift offers a wide range of lifting/respositioning options, from turning to lifting to toileting, the Cirrus does it all.

Cirrus Lift Features

- Choice in lifting capacity
- Smart Technology
- True six-point spreader bar
- Continuous charge
- Curtain Track Pass-Through solution
- Optional integrated scale
- Optional quick-release trolley

The Cirrus Ceiling Lift is designed specifically for high-traffic facilities. The lift is a powerhouse and features all-metal gear construction, ensuring quality & durability.
