

Maybe you don't need a ceiling lift in every room. But you still want to ensure your patients and your clinicians are safe.

Tollos is proud to offer our portable ceiling lift: the Stratus. Now you can quickly and easily disconnect the lift in one room and take it with you to the next.

Every patient deserves to feel secure & comfortable during the lifting/repositioning process. Every clinician deserves a safe work place.

Work smarter and offer peace of mind.

Stratus Ceiling Lift

tollos

The Stratus® Portable Ceiling Lift has been completely re-engineered to meet your needs. With all metal gears and an efficient motor, the Stratus combines durability with intuitive diagnostics to provide all you need in a portable lift. Stratus is perfect for those facilities needing a long life, various load, reliable lifting solution.

The Stratus lift is designed to meet the rigors of daily, frequent use.

Stratus Lift Features

- Choice in lifting capacity
- Quick-release trolley
- Smart Technology
- Six-point spreader bar

The Stratus Portable Ceiling Lift is designed specifically for high-traffic facilities. The lift is a powerhouse and features all-metal gear construction, ensuring quality & durability.
