

All of your patients deserve treatment that maintains their dignity. The fact is, some patients are more challenging than others.

With the Titan Mobile Lift, you can lift, move, reposition, and turn your bariatric patients without strain to you or fear of injury for them.

Protect yourself and protect those your care for.

Titan offers an easy, powerful option and it is ideally suited for turning, gait training, rehabilitation, repositioning, limb fitting, and lifting, even from the floor.

The Titan® Mobile Lift is the only high capacity lift available with a robust electric/hydraulic actuator system. Manufactured in North America, this lift includes a long list of standard features specifically engineered to optimize patient comfort and safety, as well as reduce caregiver injury. The Titan is also suitable for effective gait training and general rehabilitation activities.

Titan Mobile Lift Features

- Smart Technology
- Power base widening
- Extra long boom
- Heavy duty casters
- External scale option
- True six-point spreader bar
- Multi-grip push bar
- Heavy duty electric/hydraulic actuator
- Emergency manual lowering system

The Titan comes with 3 inch (76 mm) front casters to ensure lower bed clearance.

Supplement your lift with Tollos' complete line of Bariatric Slings.
